How should I approach my studies?

1 Linear Study –

chapter by chapter.

most amount of time.

most effective.

2 Topical Study –

Faster,

more risk,

weighting of topics.

likelihood of related questions on the CMT exam.

While the second method may be most attractive in terms of time, we recommend linear study and using topical study as a supplement to ensure candidates learn what they need to know.

Practical training and regularly reading price charts often helps in the performance.

How much time is needed to clear CMT Level 1 Exam?

As this is a Charter designation, we believe the more time you give the better it is. Minimum one needs is 120 hours of self-study and 120 hours of Chart observation. Remember the purpose is to learn not to just get the designation. With 2 hours of daily commitment and persistence one can easily crack the exam in 4 months.

Classes are online or offline?

The classes are done in hybrid mode. As we are based in India's financial capital, Mumbai the in-person class is available only in Mumbai. For others who are outside Mumbai or are more comfortable taking course online can join online. We maintain uniformity in study material and content.

Where can I give the exam?

Candidates have the option to register the test at either a Prometric Test Site or through ProProctor, Prometric's Remote Test system.

Exams are conducted at Prometric Center In India. They are currently situated at Goregaon West, Mumbai, Ahmedabad, Hyderabad, Bangalore, Chennai, Delhi, Kolkata.

What are the requirements for ProProctor?

Use these checklists to confirm your environment and computer's compatibility to allow remote proctoring via Prometric's ProProctor™ application. For a remotely proctored exam, your computer must have a camera, microphone and internet connection, and be able to install a lightweight app prior to the test event. The camera must be movable; you must be able to pick up the camera (or the computer it's attached to) and provide a 360° view of the room. You will take the exam online while a Prometric proctor is overseeing the examination process remotely.

Test Environment Requirements

Your office or home setting must meet the following requirements:

- Testing location must be indoors (walled), well lit, free from background noise and disruptions.
- No third party may be present in the room or enter the room for the duration of the exam. If this occurs, your exam will be terminated and/or your results invalidated.
- Your workstation and surrounding area must be free of books, electronic devices, etc. No content that could potentially provide an unfair advantage during your exam, including that posted on walls or within your immediate area, should be present during your exam session.
- If the room you use for testing is a) on the first or second floor and has exterior-facing windows or b) has interior-facing windows (as in many conference rooms and offices), then existing blinds or curtains should be closed, or other window coverings put in place.
- Two tissues are permitted at your workstation but must be inspected by the Proctor prior to the start of your exam.

Technology Requirements

ProProctor™ System Requirements:

- You can only use a laptop or desktop computer for your exam. No dual-monitor configurations are permitted for testing (ie: a desktop with two monitors or a laptop with a separate monitor are not permitted).
- Laptop/PC Power Source: Please plug your device directly into a power source, not attached to a docking station.
- Camera and microphone: Whether or not it is attached to your laptop or PC, your camera needs to be able to move around and provide a view of your entire workspace. You must have a working microphone to speak with your remote proctor.
- Screen Resolution: 1024 x 768 is the minimum resolution required.
- Operating System: Windows 8.1 or higher | MacOS 10.13 or higher.
